Summary

The **application programming model for SAP Cloud Platform** is SAP's programming model for building enterprise business applications by guiding developers with SAP best practices for full stack development.

Seamlessly integrates Open Source Software and SAP technologies into one consistent **e2e programming model** and development experience

Light-weight & modular implementation of CDS allowing rapid development of persistency, business logic and UI, tailored for SAP Cloud Platform

Guides developers with by providing a set of enterprise-grade tools, languages and libraries, allowing them to **focus only on their domain logic**

The screenshot shows the SAP TechEd Online homepage. At the top, there's a navigation bar with links for Home, 2017 Videos, Archive, Blogs, and SAP TechEd. On the right, there's a user icon and a yellow 'Registration' button. The main banner features the text 'SAP TechEd Online' and 'Registration for Las Vegas is Open Now' with a 'Get Registration Information' link. Below the banner is a graphic of a large audience in a conference hall. To the right of the audience, there's a 'Contact us' button. A 'Featured Blog' section is visible, showing a profile picture of a woman and a link to a blog post about SAP TechEd in 2018.
